DETAILED ACTION

Claim Rejections - 35 USC § 102

Claim Rejections - 35 USC § 103

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-9 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Hansen US 5,330,827.
4. This patent teaches the use of fillers in oriented polymers formed by drawing, see column 2 lines 58+ and column 3. The fillers are seen to be capable of forming cementitious bonds by reacting with a fluid, see column 6 lines 20+ and column 7 lines 25+. The claimed amount of filler is seen to be anticipated and/or obvious from the examples and the disclosed amounts.
5. The limitations of the dependent claims are seen to be anticipated and/or obvious from the disclosure and the art recognized conventionality and disclosure of the cement species, drawing process and non-reactive fillers.
